RISK ASSESSMENT FORM

No	Hazard Description (i.e. potential causes of injury/damage)	Potential injury/damage	Persons at risk	Current preventative and protective measures	Risk Level (See method)	Further action required	Residual Risk Level
1.	<p>Education settings must be able to achieve the following controls as defined by the Department of Education before opening the school to a wider population. The Risk Assessment must be reviewed by Head Teachers point by point and where actions are implemented, they must be reworded to show how the controls have been applied. Where points are not completed but will need to be addressed, they should be placed in the Further Actions Required column with a time frame for completion. Items that are not applicable to the school's specific settings should be deleted. Government guidance updated from the 16th of August 2021 states: From 16 August, you will not be required to self-isolate if you are a close contact of someone with COVID-19 and any of the following apply:</p> <ul style="list-style-type: none"> • you are fully vaccinated • you are below the age of 18 years 6 months • you have taken part in or are currently part of an approved COVID-19 vaccine trial • you are not able to get vaccinated for medical reasons <p>Instead of self-isolating, those who are fully vaccinated and under 18s identified as close contacts of positive coronavirus cases are advised to get a free PCR test as soon as possible.</p> <p>Staff members who have been identified as having had close contact with a positive case should in addition to arranging for a PCR test, take an LFD test every day for 7 days if they continue to attend work (e.g., they are exempt from self-isolation due to being double vaccinated). If at any time the staff member becomes symptomatic, they must stay at home and arrange for a PCR test immediately (regardless of having already had a negative PCR test result).</p> <p>Students (from reception age or above) or staff who lives with someone who has tested positive for COVID-19, should in addition to arranging a PCR test also take an LFD test every day for 7 days while they continue to attend school or work – testing should start from when the</p>						

RISK ASSESSMENT FORM

first person in the home tests positive as household transmission is very likely to happen. If at any time the student or staff member becomes symptomatic, they must stay at home and arrange for a PCR test immediately (regardless of having already had a negative PCR test result).

Increasing lateral flow testing – NEW LOCAL GUIDANCE FOR PRIMARY

Lateral flow device (LFD) testing is now recommended to children under the age of 12 and should be used as a preventative measure in the outbreak management response for primary schools starting from reception age (4 years old). This means, if a school reaches the threshold for activating their outbreak management plan, or there has been two or more cases within the class, all children within the class (or consistent group) should be asked to take a LFD test as soon as it is possible to do so – and repeat the LFD test 3 days later. Families should still arrange for a PCR test.

If there has only been a single case within a class, and the school have identified very close contacts to the positive case (e.g., only a small number of students have been identified such as those sitting at the same table), the school should ask the very close contacts to take an LFD test as soon as it is possible to do so – and repeat the LFD test 3 days later. PCR testing for the very close contacts would also still be advised.

Primary schools should encourage families to pick up a lateral flow testing kit from a local pharmacy or library but do also have the option of ordering additional lateral flow kits to the school. Some schools may wish to order additional testing kits to hand out to those families whom they think are less likely to collect one.

Increasing lateral flow testing – NEW LOCAL GUIDANCE FOR SECONDARY

Secondary students who are identified as close contacts to a positive case, should in addition to arranging a PCR test, take a lateral flow device (LFD) test every day for 7 days while they continue to attend school. If at any time the student becomes symptomatic, they must stay at home and arrange for a PCR test immediately (regardless of having already had a negative PCR test result).

Children aged under five years old are not required to take a test unless the positive case is within their household.

Fully vaccinated means that you have received your final dose of an MHRA- approved COVID-19 vaccine in the UK vaccination programme at least 14 days prior to contact with a positive case.

Anyone who tests positive following the PCR test will still be legally required to self-isolate, irrespective of their vaccination status or age in order to break onward chains of transmission. Meanwhile anyone who develops COVID-19 symptoms should self-isolate and get a PCR test and remain in isolation until the result comes back.

RISK ASSESSMENT FORM

Self-isolation and shielding

All clinically extremely vulnerable (CEV) children and young people should attend their education setting unless they are one of the very small number of children and young people under paediatric or other specialist care who have been advised by their clinician or other specialist not to attend.

No	Hazard Description (i.e. potential causes of injury/damage)	Potential injury/damage	Persons at risk	Current preventative and protective measures	Risk Level (See method)	Further action required	Residual Risk Level
3.	Class or Group Size	<p>Possible transmission of the virus between staff and children, and into the wider community.</p> <p>People can catch the virus from others who are infected in the following ways:</p> <ul style="list-style-type: none"> • virus moves from person-to-person in droplets from the nose or mouth spread when a person with the virus coughs or exhales • the virus can survive for up to 72 hours out of the body on surfaces which people have coughed on, etc • people can pick up the virus by breathing in the droplets or by 	Staff, children, contractors, parents/guardians	<p>Classrooms will accommodate a maximum of 30 children plus a teacher and possibly one other staff member.</p> <p>We have removed any excess furniture and other non-essential resources so that desks are spaced as far apart as possible.</p> <p>We have allowed enough space between desks for safe ease of movement within the classroom</p>	Medium	<p>Children in KS2 will be seated facing the front of the class to minimise the risk of face to face spreading of germs. Early years and KS1 may have different seating arrangements to ensure effective teaching. This will be reviewed if Govt's Tier level increases.</p> <p>Ensure groups or bubbles are kept apart from other groups, bubbles.</p> <p>Limit as far as possible interaction, sharing of rooms and social spaces between groups. Assemblies in Year Group 'bubbles with classes socially distant.</p>	Low

				movement and flow of people to stay within bubbles of 30 during large events such as this			
6	Maintaining infection control during the day.	Same as in Section 3	Staff, children, contractors, parents/guardians	<ul style="list-style-type: none"> • Ensure that children and young people are in the same class groups at all times each day, and different groups are not mixed during the day, or on subsequent days, except for Year group clubs. • Ensure that the same teacher(s) and other staff are assigned to each group and, as far as possible, these stay the same during the day and on subsequent days, • Ensure that wherever possible children and young people use the same classroom or area of a setting throughout the day, with a thorough cleaning of the rooms at the end of the day. Pupils will sit at the same desk each day. 	Medium	<p>Remain in classes of maximum 30 children at all times.</p> <p>One or two adults will be allocated to each class The staff in each class will remain the same each day, other than covering for any staff sickness. The exception will be “float” teachers who will work across the school but retain a 2 metre distance from the children.</p> <p>Pupils will keep to the same seats each day. We will have a set seating plan.</p>	<p>Low</p> <p>Low</p>

RISK ASSESSMENT FORM

				<p>More frequent cleaning will be undertaken in rooms / shared areas that are used by different groups, eg. lower hall occasionally for singing lessons.</p> <ul style="list-style-type: none"> • Reduce mixing within education or childcare setting by: • Accessing rooms directly from outside where possible • One-way circulation where possible, or place a divider down the middle of the corridor to keep groups apart as they move through the setting where spaces are accessed by corridors • We have implemented staggered breaks at 15minute intervals per year group to ensure that any corridors or circulation routes used have a limited number of pupils using them at any time 		<p>Most classrooms have direct access from outside. Designated routes will be identified for those that are not.</p> <p>Signposts will guide staff and children to move in a single file on the left hand side in the corridors.</p> <p>As above. Social distancing measures will be apply at all times.</p> <p>Children and staff will be instructed to wash hands thoroughly and frequently at key times throughout the day. On entry to school, break times, before and after lunch, anytime they cough or sneeze, or use the music hall.</p> <p>Children will eat in their classrooms, at their own desks.</p> <p>Children will be delivered a daily packed lunch to their classroom. This will</p>	
--	--	--	--	---	--	---	--

RISK ASSESSMENT FORM

				<ul style="list-style-type: none"> We have implemented staggered lunch breaks at 30 minute intervals per year group lunch breaks - children and young people should clean their hands before lunch, as well as throughout the day: First thing in the morning; at break times; after using the toilets; before eating food and after using shared resources. Parents have been advised to ensure children wash their hands as they arrive home each evening. 		<p>be left outside of their classroom door entrance by a dedicated member of the catering staff. The lunches will be brought into the classroom by the class teacher and distributed by safe distance to each child.</p> <p>Children choosing to bring in their own packed lunch should do so using containers that are easy to open by the children themselves</p> <p>Children will be allocated specific toilet facilities to use, thereby limiting the number. Children will be reminded of social distancing re numbers using the facilities at any one time. SLT to be on duty to ensure social distancing. Toilet visits will be restricted to only two children at any one time.</p>	
--	--	--	--	---	--	---	--

RISK ASSESSMENT FORM

				<ul style="list-style-type: none">• Ensuring that toilets do not become crowded by limiting the number of children or young people who use the toilet facilities at one time. A maximum of two children at a time in the toilets. <p>Use outside space:</p> <ul style="list-style-type: none">• For exercise and breaks• For outdoor education, where possible, as this can limit transmission and more easily allow for distance between children and staff.• Stagger the use of staff rooms and offices to limit occupancy		<p>Teachers will use their discretion to take children outside as long as they stay in their class. Each class will remain separate from any other class at all times.</p> <p>Halls will be used by one bubble at a time with cleaning / sanitisation between uses.</p>	
--	--	--	--	--	--	---	--

RISK ASSESSMENT FORM

				<p>Reduce the use of shared resources:</p> <ul style="list-style-type: none"> • By seeking to prevent the sharing of stationery and other equipment where possible. Shared materials and surfaces should be cleaned and disinfected more frequently • Although practical lessons can go ahead if equipment can be cleaned thoroughly and the classroom or other 	<p>We will use the lower hall for music lessons / singing in individual classes applying the social distancing rules at all times. The hall can accommodate 30 children socially distanced and side to side, or back to back. Instruments will be cleaned after each use.</p> <p>Doors, generally, will be propped allowing exceptions for fire door security where necessary.</p> <p>PE lessons / activity will be ideally held outside in individual class groups applying the social distancing rules at all times. Equipment will be particular to each class/bubble and will be cleaned after each use.</p> <p>The ICT suite will not be used.</p> <p>We will only allow a maximum of 8 staff at any one time in the staff room</p>	
--	--	--	--	---	--	--

RISK ASSESSMENT FORM

				<p>learning environment is occupied by the same children or young people in one day, or properly cleaned between cohorts</p> <p>Adjust transport arrangements where necessary including:</p> <ul style="list-style-type: none"> • Encourage parents and children and young people to walk or cycle to their education setting where possible. 		<p>to allow for social distancing. The 4 dining tables will be spaced out. All additional chairs will be removed.</p> <p>Individual staff offices (not main school office) will only have a maximum of two persons at any time. Our teacher planning room (PPA) will have a max of 4 persons. The main training room will have a max of 15 persons. Signage and guidance on doors and walls will reinforce this.</p> <p>Children will be asked to bring in their own pencil case and essential stationery. This will be personal to them and will remain in school at all times.</p> <p>Children will be asked to bring in their own hand sanitiser and tissues.</p> <p>Where possible we have removed any small items such as toy lego pieces and have only kept larger toys.</p>	Medium
--	--	--	--	--	--	--	--------

RISK ASSESSMENT FORM

						<p>We cannot always prevent very young children touching a variety of other items in between thorough cleaning. This therefore makes working with very young children eg nursery and reception a risk. We will however teach children not to touch other children and other children's belongings.</p>

						and windows for ventilation.	
8	Exposure to Corona Virus - Use of PPE	Same as in Section 3	Staff, children, contractors, parents/guardians	<ul style="list-style-type: none"> The majority of staff in education settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain an appropriate social distance from others. PPE is only needed in a very small number of cases including: Children, young people, and students whose care routinely already involves the use of PPE due to their intimate care needs should continue to receive their care in the same way 	Medium	<p>The School already has a small supply of PPE for this purpose. We have face masks, gloves, goggles and aprons.</p> <p>We have also ordered 125 visors for staff if required. If staff choose to use these, they will then be soaked in anti-bacterial cleanser at the end of each day.</p>	Low
9	If staff or a child becomes unwell with Covid symptoms	Same as in section 3	Staff, children, contractors, parents/guardians	If a child, young person, or staff member develops symptoms compatible with coronavirus, they should be sent home and advised to request an immediate test. If the test is positive they should remain at home in	Medium	If a child or staff member develops symptoms, they will be immediately moved to our special isolation room, in the interim period before being collected / taken	Low

RISK ASSESSMENT FORM

			<p>isolation for a minimum of 5 days or until they have no more symptoms, whichever is the longer. A lateral flow test should be taken on day 4 and day 5. If the result is negative on both days and they are showing no symptoms they can return to work/school.</p> <p>A PCR test will only be required if asked to do so directly by the NHS</p> <p>Instead of self-isolating, those who are fully vaccinated and under 18s identified as close contacts of positive coronavirus cases are advised to take an Lateral Flow test every day for 7 days if they continue to attend work.</p> <p>Those who are aged 4 or younger are not required to take a test unless the positive case is within their household.</p> <p>Where the child, young person, or staff member tests negative, they can return to the school.</p>	<p>home. Staff looking after a child in this room must wear PPE. Parent/carer to be advised to collect child ASAP.</p> <p>The door to the isolation room should be closed but a window should be opened.</p> <p>If they need to use the bathroom, this should be closed off after use, and only re-opened after it has been properly cleaned using anti-bacterial / viral cleaning procedure.</p> <p>Children or staff will only be allowed to return to work if the test proves negative.</p> <p>Parents to be advised to inform the School immediately if their child develops symptoms. The child will not be allowed into School until they have been tested OK.</p>
--	--	--	--	--

RISK ASSESSMENT FORM

				<p>As part of the national test and trace program, if other cases are detected within the cohort or in the wider setting, Public Health England's local health protection teams will conduct a rapid investigation and will advise the school and other settings on the most appropriate action to take. In some cases, a larger number of other children, young people may be asked to self-isolate at home as a precautionary measure – perhaps the whole class, site or year group. Where settings are observing guidance on infection prevention and control, which will reduce risk of transmission, closure of the whole setting will not generally be necessary.</p> <p>The Class teacher and the School office will keep a record of pupils and staff in each group.</p>		<p>If any staff or children test positive, the School will engage immediately with the NHS "Test and Trace" system. We will liaise with Public Health who will advise the School.</p> <p>The School will phone the DFE hotline and also the self-isolating service, and liaise with Public Health.</p> <p>If we have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, we will work with the local health protection team who will be able to advise if additional action is required.</p> <p>We have developed contingency plans should a class, group or small number of pupils need to self-isolate</p>	
--	--	--	--	--	--	--	--

RISK ASSESSMENT FORM

						<p>or if there is a local lockdown requiring pupils to remain at home.</p> <p>A full remote learning package is available for all isolating cases.</p> <p>The school has a regular supply of Rapid Lateral Flow Test kits and staff are encouraged to self test twice a week. Results are reported to the school and to the NHS website</p>	
10	Lack of adequate communication	Infection control procedures and protocols are not observed.	Staff, children, contractors, parents/guardians	<p>Self Test Kits in School.</p> <ul style="list-style-type: none"> • We have issued guidance to parents and staff as below: • Tell children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus (following the COVID-19: 	Medium	<ul style="list-style-type: none"> • Also, if required, we may engage parents and children in education resources such as e-bug and PHE schools resources • Parents must inform the School immediately if any member of their 	Low

RISK ASSESSMENT FORM

						The School will obtain contact information on any third party contractors or visitors invited onto the School grounds, in order to engage with them if necessary as part of the Test and Trace requirements.	
11	School Meals	Provision of School Meals for staff and children	Staff and children	Due to the space issues in our current kitchen we cannot provide hot meals for all the children attending school from September 2020. The kitchen is too small and the current design with its “fixed” island of equipment such as ovens, fryers etc makes it impossible to maintain a safe distance in the kitchen or servery area.	Medium	Staff in the kitchen should where possible keep a 2 metre distance.	Low
					Medium	We will ask staff to prepare a nutritious “packed” lunch daily for all pupils by utilising the main hall adjacent to the kitchen. Each staff member will work at their own catering table at least 2m apart from each other.	Low
						The food will be served as individual packed lunches in paper bags. (Meat or veggie option) and delivered by trolley to each of the classrooms	

RISK ASSESSMENT FORM

						by a member of the catering team, as described earlier	
12	Fire Safety	Fire Safety	Staff, children, contractors, parents/guardians	All the usual Fire safety tests will continue to apply: Fire drills, Fire Extinguisher tests, Fire Alarm tests, Fire blanket checks,	Medium	<p>Fire drills / emergency evacuations cannot be carried out effectively, speedily and in a safe organised manner if we had to adopt social distancing measures and congregate at particular muster points.</p> <p>Social distancing measures cannot fully apply in these circumstances although staff will apply social distancing measures at the assembly point if it is safe to do so.</p>	Medium
13	First Aid Provision	First Aid Provision.	Staff, children, contractors, parents/guardians	General first aid provision will be available with first aid qualified staff present	Medium	The School has a small supply of PPE which can be used when necessary. Most of the time PPE will not be required except for specific incidents or for any children which require very close attention such as vulnerable or SEN children	Low

RISK ASSESSMENT FORM

14	Vulnerable Staff And Children and Expectant Mothers	Risk of illness of vulnerable staff, children and family members, expectant mothers.	Staff, children, contractors, parents/guardians	<p>In accordance with Government guidance all staff and children should be able to return to school from 8th March 2021 unless they have a letter from their clinician stating otherwise.</p> <p>Social distant rules apply at all times.</p> <p>We have carried out general and individual risk assessments where appropriate in order to minimise the risk as far as possible, as per Government health and safety information.</p> <p>Clinically extremely vulnerable staff can still attend work.</p>	Medium	<p>We have taken individual consideration for any particularly vulnerable children and / or staff.</p> <p>We have relocated the desk for one of our staff who is in the extremely vulnerable category to further minimise contact with others. We have also ordered a Perspex screen for the staff member's desk.</p> <p>If we are provided with a clinician's report that a child or staff member remains at risk, the School will carry out an individual risk assessment.</p>	Low
15.	Singing and Dancing	Infection Control Procedures. (same as section 3) Teacher working with several classes.	Staff, children, contractors, parents/guardians	<p>Children will be working within their class to minimise risk of infection.</p> <p>All control measures around social distancing, cleanliness and hygiene will be administered at all times as per the control measures listed in all relevant sections above.</p>	Medium	<p>Staff and children to follow all the measures identified at all times.</p> <p>Staff and children to ensure adequate hand washing before and after each session.</p>	Low

RISK ASSESSMENT FORM

						<p>All musical instruments used will be cleaned thoroughly after each use.</p> <p>Staff member to keep to social distancing rules at all times especially as working with different groups of children.</p>	
16.	Lettings	Safe use of premises	Hirer, adults and / or children attending, staff	<p>The School will allow the hire of its halls or external grounds to external clubs, associations or for private parties for children.</p> <p>The School will follow all of the guidelines about social distancing in these circumstances and will insist on seeing a suitable risk assessment from the proposed hirer. The RA will be examined and approved by the School before any agreement to allow use of the premises. The hirer must also agree to abide by any rules and regulations concerning the hire as advised by the school and included in our premises hire terms and conditions, available on the school website.</p>	Medium	<p>The school will insist on the hirer ensuring all of its members adhere to the strict hygiene regime promoted on posters throughout the school and beside all the toilet and sink areas.</p> <p>Hirers will only have access to the toilets and communal areas relevant or closest to their hire space.</p> <p>The hirer must insist on all of its members bringing in and taking away their own resources and equipment.</p> <p>School site staff will ensure thorough cleaning of toilets and communal areas in between and at the end of each hire.</p>	Low

RISK ASSESSMENT FORM

						Cleaning/infection control advice and guidance will be issue to site staff by the School's cleaning supervisor.	
--	--	--	--	--	--	---	--

RISK ASSESSMENT FORM

Risk Assessment Method

In order to assess a risk associated to a hazard, two factors need to be considered:-

i - the possible severity of the outcome

Realistically, what is the worst likely outcome? This method defines four categories of severity:-

Fatality or permanent disability Major injury or long-term absence 3-day injury or temporary disability Minor injury

ii - the likelihood of the outcome to occur

How likely is it that the severe outcome will occur? Five categories are defined:-

Likely	A repetitive occurrence should be expected
Probable	Foreseeable
Possible	Could occur sometime
Remote	Unlikely, though conceivable
Improbable	Almost negligible

Once those two factors are assessed, the matrix on the next page can be used to determine the level of risk. This information was then used to prioritise any control measures necessary to eliminate or reduce the risk to an acceptable level.

RISK ASSESSMENT FORM

Risk Assessment Method (continuing).

Matrix

	Likely	Probable	Possible	Remote	Improbable
Fatality or permanent disability	VERY HIGH	VERY HIGH	HIGH	MEDIUM	LOW
Major injury or long-term absence	VERY HIGH	VERY HIGH	HIGH	MEDIUM	LOW
3-day injury or temporary disability	HIGH	HIGH	MEDIUM	MEDIUM	LOW
Minor injury	MEDIUM	MEDIUM	LOW	LOW	VERY LOW

Action Level

VERY HIGH	Unacceptable risk - immediate action required
HIGH	Risk reduction required - high priority
MEDIUM	Medium risk - action required so far as is reasonably practicable
LOW	Low priority - further risk reduction may not be feasible or cost effective
VERY LOW	Low risk - no further action required
