Supporting Learning at Home

- One important way to help your child's development at home is to make time to share books every day. Go with your child's interests and make story/ book time a special part of your day.
- Another great way to support early child development is to play simple games as a family. This could be 'I Spy', 'Pairs', 'Snap' or any family favourite games.
- Spending time outside will help your child to develop physically, learn about the natural world and improve their mental health. Take regular trips to the playground, park and woods.
- Try cooking simple recipes with your child eg biscuits, fruit kebabs, bread rolls.
- Look out for our weekly Nursery Newsletter for regular ideas of how to support learning at home.
