Monday 15 th December	In English, we will read 'The Christmas Story'. In Maths, we will continue our work on patterns. In RWE, we will look at winter festivals.
Supporting Learning at Home • One important way to help your child's development at home is to make time to share books every day. Go with your child's interests and make story/ book time a special part of your day. • Another great way to support early child development is to play simple games as a family. This could be 'I Spy', 'Pairs', 'Snap' or any family favourite games. • Spending time outside will help your child to develop physically, learn about the natural world and improve their mental health. Take regular trips to the playground, park and woods. • Try cooking simple recipes with your child eg biscuits, fruit kebabs, bread rolls. • Look out for our weekly Nursery Newsletter for regular ideas of how to support learning at home.
