

Dear All,

I am very delighted to write you this note, I am very happy to have you all and teachers in our BAM degree course, we have learnt a lot from your teachings and we are hoping and ready to make good use out of it. You are such a lovely team and a team which everyone wants to be part of. In your team it is very difficult to know the boss or head because you are always lovely with each other. You are always ready help when one is in need. I am very proud of you team.

Secondly, I want to thank you for the lovely gift you donated to EducAid they mean nothing to you but it like diamond to us they are very useful for your student and we are ready to make good use of them. The sport activities Jack shared with us is very useful to us and we are ready to practice and implement it in our school.

Moreover, I want to send my apologies to you all for the inconvenient situation such as mosquito bites and other dangerous flies we are very concern and pleased to see you safe and happy. I know it is difficult especially in the area of accommodation but please forgive us. We will always remember you and the kids will miss you all.

This is my worst moment to see you go but again I don't want to be selfish enough there are others also need you more. Please all consider this family as part of your family.

Thank you.

My warm regards,

Carpon
